

Quality Management Policy

A & B Global Mining (Pty) Ltd, we are committed to delivering excellence in mineral exploration and resource management, geotechnical modelling and design, hydrogeology and hydrology, environmental and social, underground and surface mine design and optimization, life-of-mine planning and scheduling, clean and green energy solutions, strategic corporate and investment advisory, technical audits, productivity analysis and optimization, technical and economic feasibility studies, digitalization and automation, end-to-end project management and development . Our Quality Policy is aligned with the ISO 9001:2015 standard and reflects our dedication to meeting clients' requirements, ensuring sustainable practices, and continuously improving our processes.

- We understand the importance of understanding and meeting our clients' expectations. We are committed to delivering products and services that fulfil their needs, providing them with the highest level of satisfaction.
- We adhere to all applicable legal and regulatory requirements related to mining operations, safety, environmental protection, and quality management. We continuously monitor and update our processes to ensure compliance with the latest standards and guidelines.
- We establish measurable quality objectives and key performance indicators to monitor our performance and track progress toward our goals. By analyzing data and seeking feedback, we identify areas for improvement and implement appropriate actions to enhance our overall performance.

This Quality Policy provides the framework for establishing and reviewing our quality objectives, and it is communicated to all employees and stakeholders. We are committed to ensuring its effectiveness, reviewing it regularly, and continually improving our Quality Management System to achieve operational excellence and clients' satisfaction.
